

**Subscribing to a HIP calendar** automatically syncs all the events added to the calendar to your online calendar (Google, Apple, Outlook, etc.). This means you won't have to add events individually to your calendar. Please know that you will still need to register for events that require registration (example – Strike Team events)

### How to Subscribe to a HIP calendar

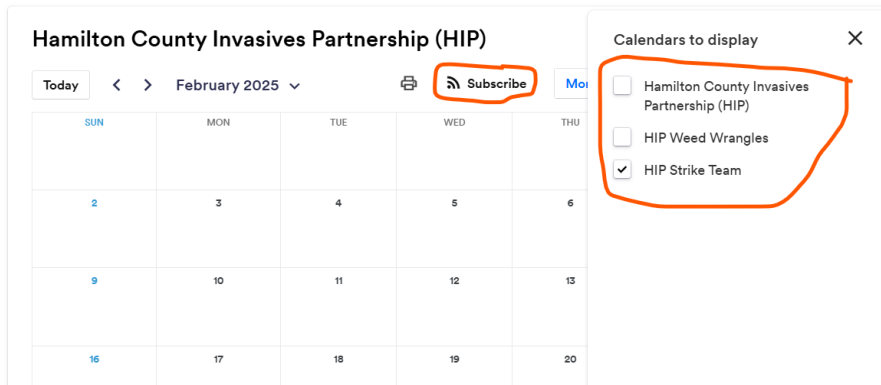

Go to the HIP calendar page (<https://www.hcinvasives.org/events.html>)

Click Calendars

ongoing basis, please fill out the [volunteer interest form](#). Our volunteer coordinator will reach out to help you find the best fit!

Select the calendars you would like to subscribe to then click the Subscribe button.

In the dropdown that appears, click the calendar service you use (Google, Apple, Outlook, Yahoo, etc).

Your calendar should open and guide you through any additional steps.

Now those events will automatically appear on your calendar as they are added to the HIP calendar!
